

Actuator Valve

The **SureFire Actuator Valve** is a NEMA 7-rated rotary electric actuator engineered for hazardous location service with torque requirements up to 200 in-lbs. _____

Specifications:

- Torque:** 200 in-lbs
- Cycle Time:** 15 - 90 second open
05 - 90 second close
- Current Rating:** 12 VDC, full load 1.3 / Lock Rotor 4.2
- Certification:** CSA Master Contract 178618
- Location:** Hazardous - Class I, Division 1 & 2, Groups E, F and G
- Voltage:** 12 VDC
- Approved Temp:** -4F to 150F
- Coating:** Thermally bonded polyester powder
- Weight:** 15 lbs
- Lubrication:** Grease, permanent, little or no maintenance required
