

ACP-100

Air Compressor Package

The **ACP-100 Air Compressor Package** is a self-contained compressed air solution engineered to supply clean, reliable instrument air for pneumatic devices in remote and unmanned locations. Designed for continuous-duty operation, *the ACP-100 provides consistent pressure output to power controllers, valves, actuators, and other pneumatic instrumentation* where utility air is unavailable.

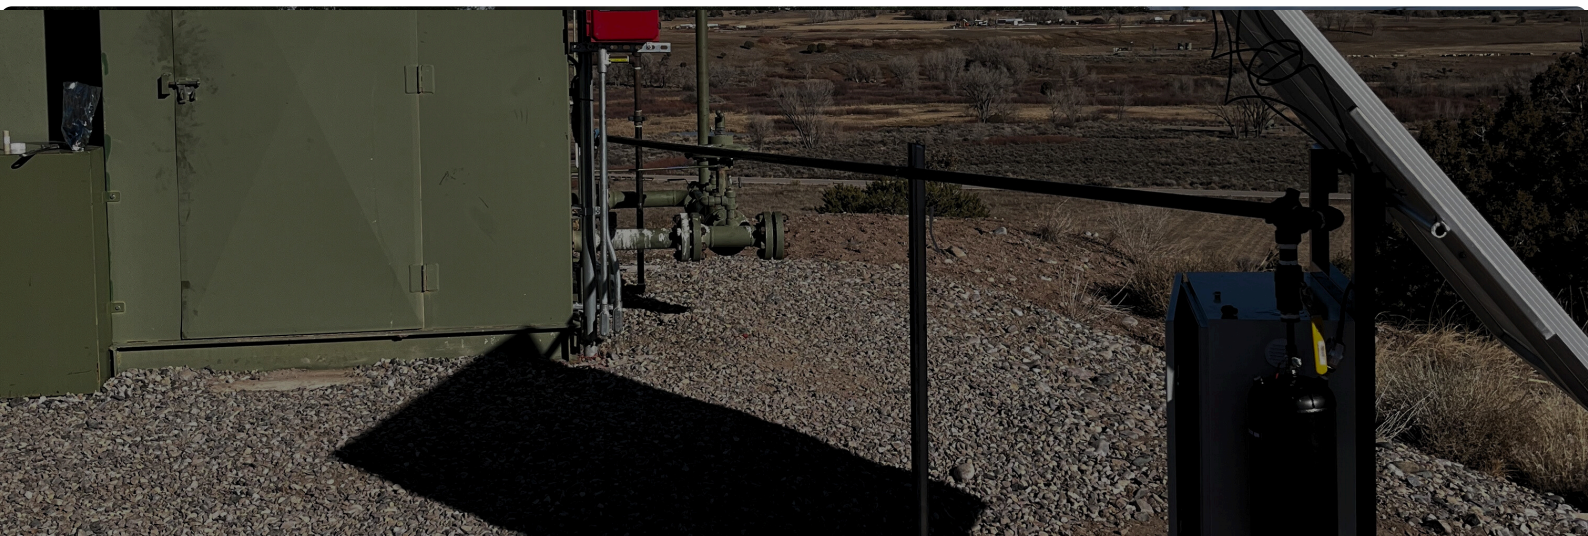

Features

- Enclosure
- 100 AH battery
- 200 watt solar panel
- 60 – 70 scf/d or less
- Solar charge controller
- Mounting stand
- 3 Gallon Storage Tank

The SureFire Difference:

- ✓ Off-grid solar/battery power
- ✓ Cost-effective compressed air package
- ✓ Plug-and-play integration
- ✓ Reduced natural gas consumption

SPECIFICATIONS

Power Input	12 VDC Input
Power Draw	Max 23 Amps
Max Working Pressure	200 psi
Flow Rate	1.8 CFM
Battery Capacity	100 AH
Warranty Policy	90 days from date of sale
