

ACP-200

Air Compressor Package

The **ACP-200 Air Compressor Package** is a self-contained compressed air solution engineered to supply clean, reliable instrument air for pneumatic devices in remote and unmanned locations. Designed for continuous-duty operation, *the ACP-200 provides consistent pressure output to power controllers, valves, actuators, and other pneumatic instrumentation* where utility air is unavailable.

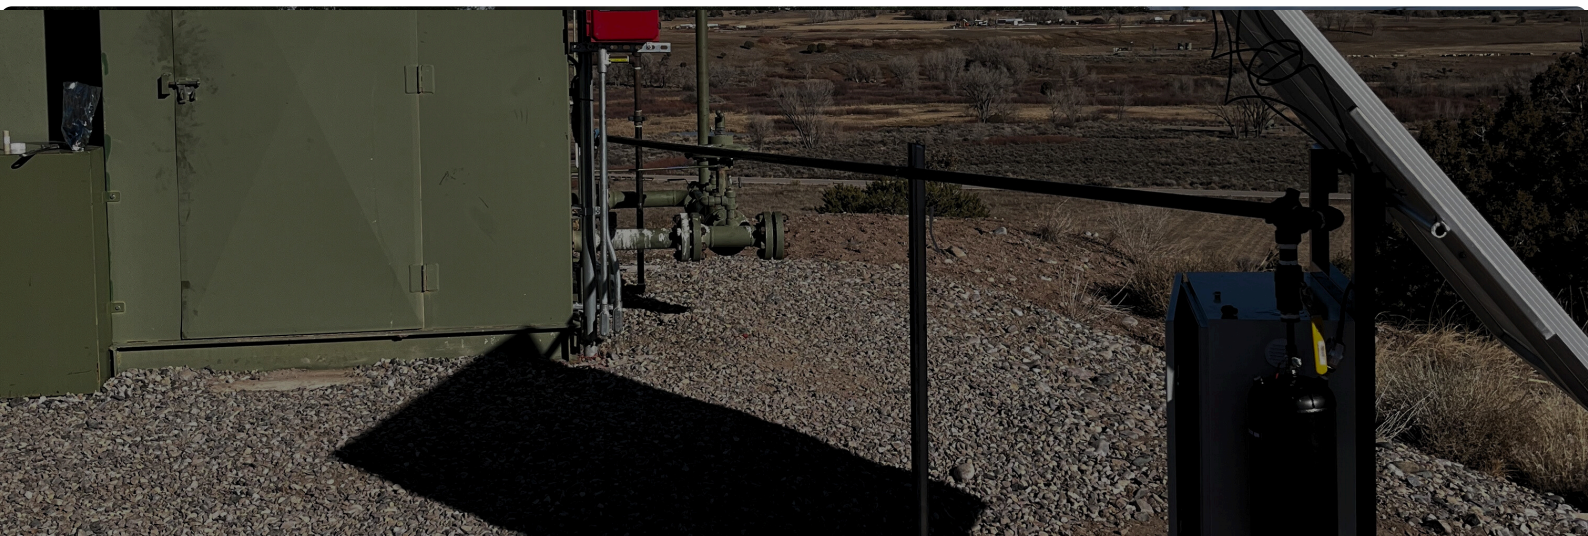

Features

- Enclosure
- 200 AH battery
- 400 watt solar panel
- 120 - 140 scf/d or less
- Solar charge controller
- Mounting stand
- 3 Gallon Storage Tank

The SureFire Difference:

- ✓ Off-grid solar/battery power
- ✓ Cost-effective compressed air package
- ✓ Plug-and-play integration
- ✓ Reduced natural gas consumption

SPECIFICATIONS

Power Input	12 VDC Input
Power Draw	Max 23 Amps
Max Working Pressure	200 psi
Flow Rate	1.8 CFM
Battery Capacity	100 AH
Warranty Policy	90 days from date of sale
